

**Cover idea (rough sketch).  
Bright colors.  
Author name in  
perspective (shadows)  
on patterned floor.**

## **Notes:**

**There are 8 interconnected fantasy mazes with seek-n-find items and a recurring penguin character (yet to be drawn in). Items to be searched for can be changed, added to, etc; most are not put in the art yet.**

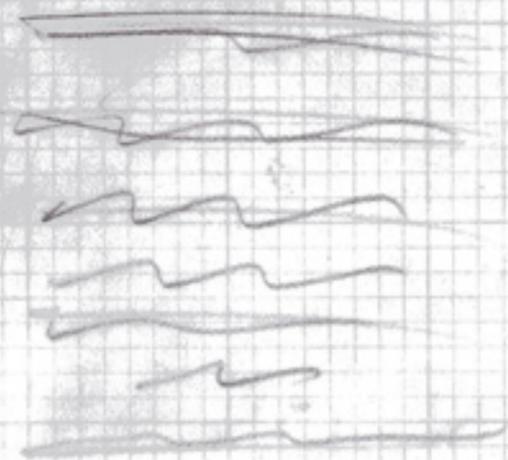

**Need a starter page after title page, leading into 1st maze (see B&W rough) with brief “instructions.” Each maze is connected to the previous one on the left side and into the next one on the right. Some of the paths or connections on the right and left sides are not yet drawn in (or not drawn to match up) because we may change sequences; then the connecting path’s color may change or position on the right and/or left may slightly shift.**

**If Z on A-Z maze is last color spread, the path after Z (upper right) can be removed. B&W answer keys in back for maze solve, penguin location, and to note the items you find.**

**If more mazes need to be added, I have ideas for several others. See Proposal.**
